GitHub: <https://github.com/harvanshsingh-beginner>

PROFILE SUMMARY

Computer Science undergraduate specializing in Data Science and Machine Learning with hands-on experience in Python, data analysis, and ML projects. Strong in data preprocessing, feature engineering, and model building.

EDUCATION

B.Tech, Computer Science (2023–2027) – SRMS CET&R, Bareilly

PROJECTS

Smartphone Addiction Detection System

- Developed ML model to analyze smartphone usage patterns
- Performed data preprocessing and feature engineering using Pandas & NumPy
- Applied classification algorithms and evaluated performance

Auto-Capture Selfie using Smile Detection

- Built OpenCV-based real-time smile detection system
- Automated selfie capture using face and smile recognition

EXPERIENCE

Freelance / Academic Project Contributor (Remote)

- Assisted in Python and data-related projects
- Debugged code and improved performance
- Worked on data preprocessing and analysis tasks

CERTIFICATIONS

- Data Science Training – WsCube Tech
- Data Analytics Training – TechVision

SKILLS

Programming: Python, C, JavaScript

Data Science & ML: Pandas, NumPy, scikit-learn, Data Preprocessing, Feature Engineering

Visualization: Matplotlib, Seaborn, Power BI

Tools: MySQL, OpenCV, Excel, Git, GitHub
